Noah's Ark made of Finest Silver

The Noah's Ark is an important symbol of Armenian history and deeply rooted in European culture. According to biblical tradition, the ark stranded after the flood on Mount Ararat, the national symbol of Armenia.

The bullion coin Noah's Ark is issued by the Central Bank of the Republic of Armenia.

As a legal tender in Armenia, manufacturing is subject to the strict requirements of the Central Bank: purity of silver, weight and quality of the minting are examined and guaranteed by the Armenian state.

The bullion coin is made of pure fine silver (999/1000) and is available in seven sizes. This enables every investor to make the scope of his investment free and flexible. The investment in precious metal is an investment in lasting and safe values.
